NEP - 2020

- NEP-2020 envisages Holistic education as way to lead the country into the 21st century.
- It aims at complete realisation of the self and towards national development.
- Holistic education is a drift away from compartmentalisation towards a strong **integration of the learner with nature.**
- NEP-2020 covers the total span of **holistic education** by talking of **education right from the first year to lifelong learning.**
- University as pedagogical laboratory for learning and development of the students, and developing **higher-order skills, such as analysis, critical thinking, and conceptual clarity.**

Orienting Higher Education for AtmaNirbhar Bharat

- AtmaNirbhar Bharat aims at making India as global manufacturing hub.
- Target is to achieve a USD 5 trillion economy.
- Possible if manufacturing sector grows in double digits on a sustained basis.
- Our manufacturing companies have to become an integral part of global supply chains, possess core competency and cutting-edge technology.
- Developing knowledgeable, skilled and blissful learners equipped with 21 century skills and rooted in Indian values is the unique opportunities for creating global harmony peace and development.

Inclusive and sustainable Development for Aspirational India

- Universities are realigning themselves to transform as the source of inclusive Development for Aspirational India.
- The multidisciplinary and cluster based educational models inspired by NEP-2020 are targeting the segments like **Agriculture and Allied sectors, Farmers' Welfare and Rural India, Migrant Workers, and Financial Inclusion** that are focus of governance for inclusive India
- Universities & HEIs are now technology enabled and focusing on synchronization of teaching research and innovation for providing sustainable solutions to challenges at Regional, National and Global stage thus contributing in elimination of disparities of all kinds
- The approach should shift from Incremental Change to Transformative change.

WAY FORWARD FOR UNIVERSITIES

- Developing **Holistic approach and multidisciplinary learner centric eco-system.**
- Incorporating **critical skills** such as thinking and rational decision making intended for **problem solving.**
- **Inculcating understanding among the students about the problems in life, society and nations.**
- Imparting **self-control in them through yoga, meditation** and developing **Panch Kosh** that is **important for positive mind set** in life as emphasised in **NEP-2020.**
